## Land Acknowledgements

Manitoba's Interlake is situated within Treaty 1, 2, and 5 Territory. This region includes the traditional homelands of many Indigenous Peoples including Anishinabek, Inninewak, Anishininwag Dakota, Lakota, and Dene peoples. These communities thrived on their relationship with the land before contact with Europeans - through trading routes maintained over generations as well as language practices used in ceremonies to express a deep-rooted cultural connection to Turtle Island (the name bestowed by First Nations people for what we now call North America). All lived in harmony with nature's resources. We honour this special heritage now present within our own modern society. It was also home to the Métis Nation which grew from 18th-century intermarriage between Aboriginal peoples and European settlers. We honour these ancient connections today!

We acknowledge that we work and gather on Treaty 1 Territory and that Manitoba is located on the Treaty Territories and ancestral lands of the Anishinaabeg, Anishininewuk, Dakota Oyate, Denesuline, and Nehethowuk Nations. We acknowledge Manitoba is located on the Homeland of the Red River Métis.

Treaty 2 territory and that the land on which we work and gather is the traditional territory of the Anishinaabeg, Cree, Oji-Cree, Assiniboine, Dakota, and Dene Peoples, and the homeland of the Métis Nation.

We are proud to work and gather on the Treaty 5 Territory, a land home to the Inninewak and Dene Peoples of the North.

We respect the spirit and intent of Treaties and Treaty making and remain committed to working in partnership with First Nations, Inuit, and Métis people in the spirit of truth, reconciliation, and collaboration.

# WILDLIFE SMART

Manitobans are proud to co-exist with an abundance of wildlife. Remember these Wildlife Smart tips to reduce your risk of conflicts with wildlife and to protect yourself, your property, and wildlife:

- Never feed or approach a wild animal.
- Teach children how to recognize wildlife and how to respond if they encounter a wild animal.
- If you have pets, keep them on leash and under control; don't leave them outside unattended.
- Secure attractants so that wild animals can't access human food, garbage, pet/livestock food, or composted food scraps.

Emerald Ash  
Borers are  
a threat!

Invasive species threaten Manitoba's trees. The emerald ash borer and other insects live in firewood. When firewood is moved between locations, so are the insects.
